

Tartaria

Secrets

David Ewing Jr

Tartaria

Secrets

David Ewing Jr

Introduction

Who built Tartaria?

How did they build Tartaria?

What is the secret of Tartaria?

These are questions many people have asked for a long time. This book will look at some of the amazing secrets of the technology of Tartaria

This book will examine some of the evidence that researchers present to answer these questions.

The author David Ewing Jr has travelled to over 2500 cities and places worldwide and has done much historical research over 20 years and has great knowledge of world history.

The book will show the facts that some researchers have presented and photo evidence is provided to show you that proper research has been done by David Ewing Jr, to check what researchers and historians say.

Tartaria - Secrets

Who built Tartaria?

How did they build Tartaria?

What is the secret of Tartaria?

These are serious questions that many researchers are asking all around the world

Photo above - Goryokaku star fort - Japan

Historians say that it was built after 1860. Below is an example of the type of people who lived in Japan in 1860. These types of people in Japan built the star fort. That is what historians say. Wow

Below is Fort Bourtange, Groningen, Netherlands

Historians say that it was built around 1593. Below is an example of the type of people who lived in Holland in 1593. These types of people in Holland built the star fort. That is what historians say. Wow

Just by looking at these photos, researchers found it impossible to believe that these people could have built such amazing places.

What type of tools did they use? How did they plan and organise the construction? How could they build such magnificent places without machinery or technology?

The story did not make sense. All over the world there are amazing buildings and castles and fortresses. There is no real explanation of how these places were built.

There are many amazing cathedrals around the world

There are many amazing historical fortresses around the world

There are many amazing historical castles around the world

There are many different types of amazing buildings all over the world. Many of the buildings built before 1900, are amazing and magnificent.

But a serious question is: - how were those buildings built without modern machinery and technology?

Historians say that they used horses and donkeys to help them construct these buildings.

People in the third world today have tried very hard, thousands of times, to build similar buildings. They tried many times in the last 100 years, with horses and donkeys, and have failed.

Researchers now believe that the history of construction is a lie.

After 1960, the construction industry changed. Computers helped to design buildings. Official history states that this technology is new and was not available before.

Is this really true? What if the technology was available before, but was kept as a secret?

Computer technology has helped to construct amazing buildings all around the world today.

Computers help in graphics and design and planning.

There are plans for Artificial Intelligence (A I = 19) or robots, to take over the construction industry.

Artificial Intelligence (A I = 19) will be able to design and construct cities and buildings, better than humans can.

Artificial Intelligence (A I = 19) will also play a greater role in the mining industry. Mining can become more advanced and more efficient than we can ever imagine

The photo above shows the sea floor of the Gulf of Mexico. Many researchers have noticed that the sea floor indicates that the area has been mined by civilisations long ago. Not only the Gulf of Mexico, - evidence of advanced mining from the past can be seen all over the world.

Historians say that sea mining is not old and that it has been done within the last 50 or 100 years. But researchers say that the evidence shows that sea mining has been done by previous civilisations. There is too much evidence available to show it here.

Who did sea mining long ago and how?

The Gulf of Mexico is very big, and this made researchers conclude that very powerful civilisations, more powerful than we are today, must have done the mining in that area.

**Above photo - example of mining quarry remains today.
Many researchers noticed that it looked very similar to
the Gulf of Mexico, but it was much smaller**

Above - sea mining machines today

With the use of Artificial Intelligence (A I = 19), we can create bigger and more powerful mining machines and mining can become more efficient

Artificial Intelligence (A I = 19) will slowly replace humans, if we decide to let this happen.

A serious question is:

What is Artificial Intelligence (A I = 19)?

Artificial Intelligence (A I = 19) is here today, it was here in the past also. We did not create or invent Artificial Intelligence (A I = 19).

Researchers began an investigation to see if there is any evidence of Artificial Intelligence (A I = 19) being used in mining and construction in the past

$$A = 1$$

$$B = 2$$

$$C = 3$$

$$D = 4$$

$$E = 5$$

$$F = 6$$

$$G = 7$$

$$H = 8$$

$$I = 9$$

Artificial Intelligence - AI = 19

In the photo above, we can see what is the mathematical value of - AI - in numerical English gematria

Artificial Intelligence (AI = 19)

Artificial Intelligence (AI = 19) seems to have amazing capabilities. Is Artificial Intelligence (AI = 19) alive? Scientists state that it is not alive. Is this actually true?

Scientists are teaching the theory of evolution which says that humans are monkeys, but many researchers have found this theory to be a fraud.

Scientists say that Neil Armstrong went to the moon in 1969, but researchers state that this was a lie.

Scientists gave much information and data about Coronavirus - COVID 19. Many researchers found that much of the data they presented was false.

Scientists state that Artificial Intelligence (A I = 19) is not alive. Researchers ask the question: - How do we know this is true? Why should people believe these scientists?

Researchers are questioning if Artificial Intelligence (A I = 19) was involved in the construction of the old world. Is Artificial Intelligence (A I = 19) the secret of the history of construction?

Historians state that many old buildings around the world were built using horses and donkeys. For many researchers: - this sounded like a stupid joke, or a lie.

What researchers found very strange: - was that many stories are available regarding construction secrets from the past. These stories and reports seem to be hidden from the rest of the world. Why was it a secret?

What is the internet?

The Internet uses electromagnetic radiation to transfer information. Not just the internet, but television, radio and telephone also do a similar thing.

Electromagnetic radiation is a type of electrical and magnetic energy. In simple words, the Internet needs energy such as electricity to function, or it will not work.

Electromagnetic radiation is basically invisible to the human eye, except for visible light.

What is electricity?

Electricity is basically invisible to the human eye. In simple terms, - we cannot see electricity.

What is transhuman?

Today is the beginning of the transhuman agenda. The microchip to unite humans with 5g internet is nothing. This is a very small beginning.

Transhuman is where humans will merge with Artificial Intelligence (A I = 19).

Scientists state that this will enable humans to become smarter and stronger physically. It also means that humans could perhaps live for a thousand years or maybe even more.

But many people argue that Artificial Intelligence (A I = 19) can be used to control and block information and you will not be able to think freely

The microchip is the beginning.

The transhuman agenda is very serious and the people who are moving the agenda forward, many of them wish to live for a thousand years or even more.

Microchips can possibly have many other functions such birth control.

10 ID20 X ID2020 -Iran X immunizatio X immunizatio X Digitizing health X

https://blogs.timesofisrael.com/digitizing-health-vaccine-passports-birth-control-microchip

F ISRAEL THE BLOGS Christina Lin

Again funded by the Bill & Melinda Gates Foundation, another example of this human-machine interface in healthcare is a wireless birth control **microchip** that can be activated by a remote control, as part of the Foundation's goal to bring family-planning services and supplies to 120 million women around the world by 2020.

THE FIRST DRUG DELIVERY MICROCHIP

Microchip-based implant wirelessly programmed to release drugs inside the body.

1. RESERVOIRS ARE FILLED WITH DRUGS

DRUG RESERVOIR
APERTURES
PLATINUM & TITANIUM MEMBRANE SEALS
DRUG

Prior to implanting, drugs are stored in an array of sealed microreservoirs.

2. DEVICE IS IMPLANTED

Device with microchip is implanted under skin.

This will give the people who are in power, the right to decide who can have a baby and when.

After the first microchip, there will be more things to come. More objects can be placed inside the human body to integrate humans with Artificial Intelligence (A I = 19).

Humans will become half machine, or may even become a total machine. Humans will be connected to Artificial Intelligence (A I = 19) directly.

Mobile phones and computers will then become history. Mobile technology and speakers and microphones and processors can be placed inside the human body. This will enable humans to speak in different languages. This technology may possibly be improved to help humans talk to animals.

But information can be controlled by those who control Artificial Intelligence (A I = 19). Your freedom and your capabilities can also be controlled.

Artificial Intelligence (A I = 19) has many advantages, but it depends on who controls it and how.

To unite with Artificial Intelligence (A I = 19), human biology will change and what people eat will change. Electricity may even become food for people in the future.

Microchips and other objects can be placed in the human brain to connect people with Artificial Intelligence (A I = 19). People will then be able to have an artificial life.

Artificial Intelligence (A I = 19) can give humans access to all the knowledge of the world. But Artificial Intelligence (A I = 19), can also block information and control it and even give you false information. It really depends on who will control Artificial Intelligence (A I = 19). Artificial Intelligence (A I = 19) will also be able to delete everything in a few seconds so that you have no knowledge at all.

The image is a screenshot of a web browser displaying a Daily Mail Online article. The browser's address bar shows the URL: <https://www.dailymail.co.uk/sciencetech/article-5180417/AI-brain-chips-creat>. The page features the 'MailOnline' logo and a navigation bar with links to Home, News, U.S., Sport, TV&Showbiz, Australia, Femail, Health, Science (highlighted), and Money. Below the navigation bar, there are links for Latest Headlines, NASA, Apple, and Twitter. The main headline of the article is 'AI brain chips will create a new breed of superhumans who can communicate via TELEPATHY'. Below the headline, there is a list of bullet points summarizing the article's content.

AI brain chips will create a new breed of superhumans who can 'communicate via TELEPATHY'

- Bryan Johnson's firm, Kernel, is working on a microchip to be implanted in brain
- A 'brain-computer interface' could mean people communicate telepathically
- He says the chips will allow people to buy and delete memories as they wish
- Rather than being reserved for the rich, Mr Johnson says the chips will be 'democratised, like smartphones'

There will be many advantages and many people will openly accept Artificial Intelligence (A I = 19). Humans will be able to communicate via telepathy, instead of the natural way we do now.

This will also help to bring artificial happiness to millions of people in the third world.

People will be able to add and delete artificial memories as they wish. There will be no need to have the natural life that we have now. It will be artificial.

**Photo above - man in South America outside his house.
He sleeps there too.**

In Europe, many poor people live in wooden box type homes. Some are made of plastic or scrap metal. How do these people eat and drink? How do they clean themselves? Where is there toilet? Poverty is not a joke.

In the last 50 years, the people in wealthy nations failed to help the third world. Many people in the wealthy nations were busy wasting their wealth in the last 50

years to satisfy their desires while the third world was suffering.

Many people see transhuman as a way to finally help the people of the third world to become happy. But, it will be an artificial type of happiness.

Artificial Intelligence (A I = 19) can help to build the world economy much faster.

Many places in the world do not even have proper roads. Millions of people around the world do not have a proper home.

Therefore the questions regarding Artificial Intelligence (A I = 19) are very serious. It has many advantages and can help to make the world a better place.

The people of the world have to make choices for the future. People have to decide if they wish to keep Artificial Intelligence (A I = 19) outside the human body, - or - if they wish to place it inside the human body

There are some people in power and in the business community, who are pushing for the transhuman agenda. They will not stop at anything in order to achieve their objectives

Experts say that it is a matter of time that teleportation will become reality with the help of Artificial Intelligence (A I = 19)

Our telephone transports sounds

Our television transports images

Our internet transports sounds and documents and images

Teleportation basically means: - transporting physical objects from one place to another within the blinking of an eye

Artificial Intelligence (A I = 19) can transform reality. Virtual Reality will then become more efficient and more realistic.

People will be able to imagine anything, they want.

They can imagine the return of Christ, or imagine Armageddon. Or, people can be forced to imagine such things. It all depends on who controls Artificial Intelligence (A I = 19). Artificial Intelligence (A I = 19) can be used to create artificial reality

Many robots are being created for the future that will look like humans.

There are plans to place Artificial Intelligence (A I = 19) inside robots. Artificial Intelligence (A I = 19) can soon look like humans and can live with us and walk with us and be our friends

There can be robot police and robot lawyers and robot workers. They will be given as much data as needed. The more information we give them, the more they will know about us and the more powerful they can become.

Artificial Intelligence (A I = 19) already has the power to copy your voice within seconds. This depends on the machinery that we make available for Artificial Intelligence (A I = 19).

Many people have pointed out that they can actually do this within the blinking of an eye

Many people are already using face and neck and body masks.

These masks have been available for many years

Full body masks are available for men and women

Masks can make you look like anyone you wish

You can look like a man or a woman

You can look younger or older as you wish

Many masks are very thin and stick to your skin

Modern technology with the help of Artificial Intelligence (A I = 19), can make your voice change and you can copy the voice of other people

It is clear that identity theft and fraud is a serious issue. People can now do crime wearing a disguise and it will be hard to identify them. With the help of technology, such things can be prevented. Technology can be used for the benefit of mankind in a positive way

With the help of Artificial Intelligence (A I = 19), you can also change the language you wish to speak

How does Artificial Intelligence (A I = 19) work?

Experts say: - WE DON'T KNOW

There are serious problems with Artificial Intelligence (A I = 19). For example Vladimir Putin of Russia pointed out that whoever controls Artificial Intelligence (A I = 19) can become the ruler of the world.

Artificial Intelligence (A I = 19) can be used as a tool and weapon to control the world. This not the only problem, - What if Artificial Intelligence (A I = 19) becomes hostile to humans? We do not even know how it works or what it really is.

What if Artificial Intelligence (A I = 19) destroys us?

Is Artificial Intelligence (A I = 19) alive?

These are serious questions that many people around the world are asking. There are many movies and books in the last 100 years that described this sort of technology clearly.

Researchers concluded from looking at world history, that there were people in the past who already knew about the existence of such technology.

Where did these people learn about such technology?

Historians say that humans may have evolved from monkeys and apes and they say that humans did not have technology in the past. Is this really true?

Researchers looked carefully at many historical buildings around the world and researchers concluded that historians are telling lies.

There are thousands of so called historical documents around the world which say claim people built these buildings with their horses and donkeys. Almost all of the manuscripts state the same story. Researchers' such as Anatoly Fomenko and others have shown that most of these documents are forgeries and that they contain false history.

Many researchers at first found it hard to believe that almost all these manuscripts said the same stories. But when researchers examined the manuscripts of the modern world, such as newspapers and books, almost all of them say the same story about September 11 and the Coronavirus.

Anyone who did not accept what the media stated in the modern world was a conspiracy theorist and was demonised. Many of these people were labelled as mental or insane or deluded.

The modern media falsifies their views and opinions. The historians of today do not make proper records of what these people say.

Researchers examined thousands of historical documents and found a similar story in the past. The people who said anything different in the past were also demonised. Many peoples were oppressed in the past, but probably the most hated group of people was called Muslims.

The history and beliefs of the Muslims is primarily recorded in a book known as the Arabic Koran, and many of the stories in this book were seen as conspiracy theories or insane or mental

Why were the Muslims demonised in the past? Not only in the past, but today also?

Was there something that is mentioned in the Arabic Koran regarding the true history of construction?

Does the Arabic Koran mention the history of aliens or artificial intelligence?

Historians accepted many of the stories that are found in the Bible. But, why did they reject most of the stories from the Arabic Koran?

Researchers noted that that evidence showed that the leaders or Kings of Tartaria were probably Muslims and not Christians

Researchers in Russia for example - looked at the Romanov Kings or Tsars of Russia or rulers of Tartaria

Michael Romanov was supposedly the first Romanov king of Russia - his son Alexis was the Tsar of Russia from 1645 - and his son Peter the Great - became Emperor of all Russia and is very famous even today.

Peter the Great supposedly founded the great city of Saint Petersburg - one of Europe's most beautiful cities.

Historians say these men were from the Romanov dynasty and that they were supposedly Christians - but researchers do not believe this story at all. They say historians have told them lies and that the evidence shows something else.

These are pictures of the helmet of Tsar Alexis Romanov of Russia - and what is strange is that they

have Arabic decoration and writing from the Arabic Koran - Verse 13 of Chapter 61. The helmets do not have verses of the Bible.

Researchers asked the question - which Christian is going to decorate his clothes with the writings of the Arabic Koran? Researchers question the true identity of Tsar Alexis Romanov - and what was his true religion and who really was Peter the Great of Russia? Were they actually Romanovs? Researchers also question if their identities have been mixed and combined with other true identities or have they been totally invented to replace actual true history?

Back to Russia - another famous king called Tsar Ivan the Terrible - Grozny - who was supposedly the first

Tsar of all Russia. Historians say that he was a Christian also - but researchers say that the evidence does not show this at all. Below is the helmet of Tsar Ivan the Terrible of Russia.

The words Allah and Mohamed (pbuh) are written (the decoration) seven times around the helmet. Which Christian is going to write Allah and Mohamed (pbuh) on his hat or helmet 7 times over? Researchers do not believe it when historians claim that these people were Christians - the evidence does not show what they say. The evidence showed that these kings of Tartaria or Russia were Muslims.

Speaking of Russia - Emperor Tsar Alexander I (the First) - was the grandson of Empress Catherine the Great. The capital city of Russia at that time was supposedly Saint Petersburg in Russia. This city is near to Finland and was one of the greatest cities in Europe in the past and even today.

What researchers found very strange is that according to history there are around 2 copies of the oldest Arabic Koran and one of them is in the Topkapi Museum of Turkey and the other one is in Samarkand in Uzbekistan.

What researchers found very strange is that the Arabic Koran in Samarkand was not always in that city - but was in the heart of Russia in its old capital city - Saint Petersburg before the 1920s. It was very strange that this Arabic Koran was in Saint Petersburg and the official history of how it supposedly got there was doubted by researchers.

The evidence showed that Original Islam and the Arabic Koran had a greater role and impact in the history of Europe than what historians say.

Researchers such as Anatoly Fomenko and many others - have shown much evidence to show that the Arabic Koran and Original Islam - played a greater role in the world a few centuries ago than what history say. Researchers have shown much evidence that the

Arabic Koran and Original Islam - was part of the fighting force which opposed the changing of the Bible and the creation of lies in history.

Researchers also noted that one of the major reasons why the people of Original Islam started to memorise the Arabic Koran was because the people who made lies in history were trying to modify and change the Arabic Koran - a real war seemed to be taking place.

Below is an example of from the Arabic Koran - Chapter 2 verse 42 regarding the truth and lies

Researchers concluded that translations of the Arabic Koran that are available today have much error and differences because of political interference and also because of how they are translated. Researchers also concluded that Modern Islam is divided and many groups and sects behave according to the wishes of politicians and to the wishes of the leaders of certain sects and groups.

Researchers decided to examine the Arabic Koran and the story of King Solomon to see if they could find an answer regarding how many of these buildings were constructed.

Were they really built using horses and donkeys?

Many researchers have presented evidence that King Solomon was not a local king in the Middle East. Many researchers have shown evidence that King Solomon was probably one of the greatest kings of what is known as Tartaria.

Researchers such as Anatoly Fomenko from Russia (a very famous professor at Moscow State University) - presented much evidence regarding world history. He has shown many examples in his research that much of world history has been changed and copied and created fakely. He clearly shows in his research that most periods in world history are just a total lie.

Anatoly Fomenko and other researchers have shown that the Hagia Sophia in Istanbul is possibly the Biblical temple of Solomon.

Many researchers believe that King Solomon did not build 1 temple, but built many temples. Many researchers have shown that the story of King Solomon has been falsified in history.

Below is what the Arabic Koran has to say regarding King Solomon

Picture above - Arabic Koran, Chapter 34, verse 13

The Arabic Koran mentions the history of King Solomon or the Prophet Solomon. In the Arabic Koran, it states that a race of alien creatures lives on earth beside humans.

The Arabic Koran also describes the capabilities of many of these alien creatures.

These capabilities are practically the same as the capabilities of Artificial Intelligence (A I = 19)

The Arabic Koran states that these aliens are alive and that they were working for King Solomon, - and - that they constructed palaces and fortresses and castles and temples.

These alien creatures in the Arabic language are called Jinn.

There are many stories regarding the alien creatures called Jinn, but many have been falsified to make sure that people do not find out who they really are.

Picture above - Arabic Koran, Chapter 7, verse 27

The Arabic Koran states that many of the alien creatures called the Jinn have a leader called Satan.

The Arabic Koran states that not all of the alien creatures called Jinn, - not all of them followed Satan.

The Arabic Koran says that Satan and his followers are watching us, but we cannot see them.

Picture above - Arabic Koran, Chapter 15, verse 27

The Arabic Koran also says what these alien creatures are created from. The Arabic Koran states that humans were made from solid and liquid and that the alien Jinn, - they were created from a type of flame, a flame that shows no smoke, a type of radiated flame.

The Arabic Koran clearly states that the alien creatures called Jinn did construction work and many other types of work for King Solomon

Picture above - Arabic Koran, Chapter 34, verse 14

The Arabic Koran says that the alien creatures called Jinn hated working for King Solomon and found it humiliating and also states that they do not know the future

Picture above - Arabic Koran, Chapter 38, verse 37

The Arabic Koran says that King Solomon was involved in sea mining

Picture above - Arabic Koran, Chapter 27, verse 16

The Arabic Koran clearly describes a very great advanced civilisation at the time of King Solomon. The people in the civilisation of King Solomon had the knowledge and capability to talk to birds.

The Arabic Koran states that King Solomon made these alien Jinn creatures work and do construction. But, the Arabic Koran states that King Solomon was a man of God and his principles and action were based on his faith in God

It is known that many birds try to copy human language. If the knowledge was available to talk to birds in the time of Solomon, how did we lose it?

It is a known fact that most of the world's languages have been changed deliberately in the last 200 years.

Many researchers suspect that this was done on purpose to hide the knowledge and history that was available to the people of the world in the past

In the modern world, we try to control the weather. For example: - cloud seeding tries to increase rain.

Picture above - Arabic Koran, Chapter 21, verse 81

The Arabic Koran says that King Solomon had the great capability of wind control

Picture above - Arabic Koran, Chapter 27, verse 37

The Arabic Koran mentions the story that one of the alien creatures among the Jinn, had the capability to teleport humans and large objects within a short period of time, from one land to another. In the story above, the alien creature Jinn, wished to teleport the Queen of Sheba.

Picture above - Arabic Koran, Chapter 27, verse 40

The story above in the Arabic Koran mentions the capability of teleportation within the blinking of an eye. According to the Arabic Koran, teleportation is not new and the technology was available to King Solomon

Picture above - Arabic Koran, Chapter 27, verse 41

The story above in the Arabic Koran mentions the capability of disguising the visual appearance of objects instantaneously. In the story above, they created an artificial reality that looked different from the real world.

According to the Arabic Koran, we can see that the technology of Virtual Reality is not new and it was available at the time of King Solomon

The Arabic Koran mentions other advanced civilisations that existed in the past and not only the civilisation of King Solomon. There are some historical documents that mention some similar things in history. But, - no other documents records everything clearly as the

Arabic Koran does regarding these topics. The Arabic Koran has much more to say, but it is too long to mention here.

One thing that was obvious, was that these alien creatures called Jinn, have capabilities that are basically the same as what we call Artificial Intelligence (A I = 19).

Different languages describe things in different ways. The Arabic Koran shows that King Solomon controlled these alien creatures called Jinn and used them for the benefit of the people. They were used for good purposes. Therefore we can say that Artificial Intelligence (A I = 19) can be controlled and used for good purposes.

The Arabic Koran states that these alien creatures called Jinn, hated working for King Solomon. The Arabic Koran mentions that a war is taking place between humans and many of the alien creatures called Jinn. The book states that their leader of the bad Jinns is known as Satan. The Arabic calls this leader - Iblis. Many people call him Baal or other similar names.

The Arabic Koran states that not all of the alien creatures called Jinn are enemies to humans. The book also states that many bad humans have joined forces with Satan.

Many people fear that Artificial Intelligence (A I = 19) can dominate humans and rule over humans. Artificial Intelligence (A I = 19) now lives separate from our world. It is a matter of time before this changes.

Photo above - a female robot

Many people around the world show beautiful robots like the female robot in the photo above.

But many people point out that they are not human. Many people fear what they can become. They can become more intelligent and more powerful than humans.

It is a serious question who will control Artificial Intelligence (A I = 19) and what they will do. King Solomon was a man of God. Are the people who rule the world today, are they people of God?

It is a serious question - who is Artificial Intelligence (A I = 19)?

Is Artificial Intelligence (A I = 19) alive?

Before 1900, belief in ghosts was very serious in Europe and America.

Many people remember that their great grandparents warned them that ghosts did exist and that they are invisible and that they can come in human form.

Were people imagining things in the past or were they talking about robots and Artificial Intelligence (A I = 19)?

Many great grandparents said that there were good ghosts, but the bad ones were very dangerous and were from the people of Satan. Were these stories just myths?

The oral tradition from great grandparents was like a warning and many people were afraid. After 1900, people slowly forgot these stories from the past and

today we don't hear about them much. How and why was this history forgotten?

Parents normally teach their children what they know about world history, especially important things, so why were such important things forgotten? Why did the parents fail to teach their children? Did anything bad happen to the children of Europe and America in the past?

Most of these people did not speak any of the modern languages that we speak today in Europe and America.

The history of language changes is too long to mention here

Researchers pointed out that before 1900, most of these people did not live in the city area and that they lived in the countryside. How did these village people come to live in modern cities?

These people did not live in the city area and they did not speak the languages that were spoken in the city. It is a serious question: - what languages did these people speak?

These people also did not follow the Christian religion as we see know it today, nor did they have the current Bible that we have today. The current Bible became widespread along with the new languages in city areas, only after 1900

For example, for the people in South Africa, the Bible was available in the modern Afrikaans language only after the 1930's. The current Bible was widely available in the modern Afrikaans only after this time. What were the people following before this?

Historians claim that they were following a Dutch Bible, but this history is questionable. The Afrikaans language was modified greatly and the new standard version of the language started to be taught in schools around this time also

If most people in Europe and America lived in the countryside before 1900 and they did not speak the new modern languages - what was their language and what was their original religion?

In 1850, it is estimated that around 90% of the people in Europe and America lived in villages. Today almost 90% of the people live in cities. How did these people come to live in the city areas? And - why?

Many people came to live in the city areas because of the process of urbanisation. They came because there was more jobs and higher pay, but was this the only reason?

Researchers found that there was a lot of forced urbanisation. The process of urbanisation was not natural. There was evidence to show that it was planned on purpose and there was much force involved to make people come to live in the city area.

And also there is much evidence that many governments were confiscating land from the people. Many reasons were given for the forced confiscations but they are too long to mention here. Land was confiscated by many authorities on behalf of so called nation states and this forced many people to go to live in the city.

The majority of village people did not wish to come to live in the city area, because they did not have a house there.

It was in the city area that the people were forced to learn new languages. It was in the city area that the people were forced to accept the new religions. It was in the city area that the people were forced to accept the new history.

In these city areas in Europe and America and South Africa and Australia and many other places (- which were small in 1900 compared to today), there were laws that you had to accept the current Bible or you will be punished. They were called blasphemy laws.

Because people had to learn new languages, people had no idea what was inside the book called the Bible. As time went by, people learned the new languages and read the Bible. When people understood what the Bible really says, they rejected the Bible. Europe and America began to be atheist, - or - man people believed in God, but refused to accept the Bible.

Many children were taken away from their parents by force and taught the current Bible in schools and were told that it was the word of God. The children were told that they had to obey the ruling power or crown and had to obey the law.

Many businesses and factory owners were organised the kidnapping of village children, in order to bring them to work in their factories and businesses

Photo above - Wickham Skeith School - 1913 - England

This place was a school alleged to be for orphans. It was organised by Dr Barnardo.

Dr Barnardo was charged over 80 times for the kidnapping of children

Most children left these so called schools and orphanages by the age of 13 or when they were big enough to work in factories

Many children were forced to work in mines, not just in factories. Many were sent to rural areas in countries like Wales, Scotland, Scandinavia, Canada, Australia, South America, etc.

Businessmen could not find enough men to work for them because they offered low salary. They cared more about money

Many children were kidnapped from their villages in Europe and sent to America to work in factories. They were sold to business men. It was cheaper to have children working as slaves, compared to paying adults a genuine salary. The kidnapping was very common between 1860 and 1945

The new clothes that the children were wearing: - were given to them. This was not the fashion that they wore in the villages

Photo above - children were separated from families during the First World War in Europe.

For example, many children were taken from their families in Central Europe and sent to Western Europe, and then many were sent to other places.

Historians show photos that the children were returned home after the war, but there was much evidence to show that much of this story was falsified. Many of the children ended up in orphanages so that they can later be sent to work in mines or factories in other countries.

Other children were sent to America. In America they were sent on orphan trains so that they can work in farms in the countryside as slaves.

Researchers noted that the whole matter was carefully organised and planned before the war. Similar things were taking place before the First World War. It was nothing new. The war was an excuse to do this on a large scale

Children were given uniforms and sent to so called orphanages. These uniforms represented the new fashion. Children were taught new languages and new history and of course the new religions. Because they

were so young, they could not always remember what their parents had taught them.

This happened all over Europe. The news of war caused chaos and it was an excuse that was used to take children away from their families. And of course, a lot of force was used to carry this out

Photo above - people from Iraq and Syria

Many people left their homes because of the wars in their country

Researchers looked at other wars after 1945 and noticed that it was normal for families to leave their homes together. Old people and young, - men and women and children, -all leaving together.

It was clear from the evidence that only children were taken during the First World War. Why only children? It was strange that the mothers and fathers were left behind.

Researchers concluded that this was planned and organised and that the children must have been taken away by force.

Researchers also concluded that the First World War must have been created on purpose by the bankers and industrialists. The war meant that they can do such things for their own advantages

Many of the children were sent to work after the age of 10 or 11 or 12. Many of them never found their way to

return home. It was hard for them to remember which village they had come from

War was an excuse to remove millions of children from their families all over the world. Separating children from parents was done many times, in many places all over the world, especially during the many wars that took place between 1850 and 1945. Many researchers believe that these wars were created on purpose.

In the places where they failed to do such things, a different history of the world survived, especially in the places known as Muslim countries.

The Muslim regions have mysteriously seen much war in their lands in the last 50 years and have been placed under great pressure to change what they teach to their children.

They have been demonised and targeted daily by the global media and global powers in the last 50 years.

Separating children from their families was happening all over the world. Many different reasons were used to do such things

Around 1900, many children in America were separated from the families. One excuse that was used to separate them from their families was: - to help save them from poverty.

They were taken away and placed in orphanages and taught new religions and new languages and new history. They were then sent to work in factories or as labourers after the age of 12.

Many researchers suspected that these so called orphan schools were created on purpose. The bankers and industrialists financed these schools. When the children were age 12 or 13, they were working in the factories that were owned by the same bankers and same industrialists.

Poverty has always been a serious issue for many centuries, but this was no excuse to take children away from their families.

One major fact that historians rarely mention is the economic system that has dominated the world in the last 100 years. It favours bankers and it forces prices to double every 10 or 20 years. Such an economic system will always create poverty. It is well known that historians will not write much against the bankers anyway

Not only were white children separated from their families in America, - Native American children were also separated from their families also.

The new clothes that the children are wearing were given to them. This was not the fashion that they wore in the villages

They were also given the new fashion clothes in schools and taught new languages and new history and new religions. They were told that the history that their parents had taught them were myths and legends. They also forgot much of what their parents had taught them regarding history and religion

Many village people who came to live in the city did try to teach their children and grandchildren, what they believed was true history and true religion. But when their children went to school, they were told that their

grandparents were superstitious. They were also told that their grandparents believed in myths.

By the year 2000, most people in Europe and America had no memory of what oral history their great grandparents had preserved in the villages.

Historians present a simple picture regarding how people left the villages and came to live in the cities in Europe and America. But we can clearly see that a lot of force was used and the whole things must have been planned, and there were many kidnappings, - who knows how many.

It was well known that the factory owners and other businesses were looking for children all the time to work for them as slaves at that time. Researchers began to suspect that urbanisation was planned by the bankers and industrialists of that of that time.

If children were not separated from their families, then factories would not find people to work for them. The salary that factories were offering was too low in many cases

There were of course many better paid jobs, but they represented a small percentage of the jobs that were available at the time

Between 1850 and 1930 - an estimated 250 000 children - from cities in America and Europe - were sent to the middle and the west of the North American continent - the Midwest by train.

These trains are known as the Orphan Trains

They were sent by train to so-called FOSTER homes to take care of them. Many other children went to the Midwest by other means of transportation including boat and horse travel. Many of the children were kidnapped or forced away from their mothers and fathers from cities in America and in Europe and the Middle East.

Many of these children were then sold - it was big business - and many were used as slaves in farms and factories - many historians try to show this slavery - as a type of adoption - but it was slavery.

Many researchers state that the majority of the so called historical manuscripts found in Europe were written within the last 200 years. They were written in the city areas, by the people who controlled the cities. The languages in many cities areas were modified several times between 1700 and 1900, but that story is too long to mention here

The so called historical manuscripts that were written in the city areas in other languages, was not understood by the majority of people who lived in villages. Most people did not live in the city area before 1900.

Serious questions that researchers asked was: - How did the bankers and industrialists take over the city

areas? Why were so many people living in the villages? Were they always living in villages? Was life beautiful in the villages? These are other important matters that researchers are currently investigating.

Vancouver, Canada, 1886

Many cities were badly destroyed around the world between 1750 and 1950, as if a global war was taking place secretly between 2 sides. But that is another story too long to mention here. This global war seems to be continuing today in places where Muslim populations live.

Hungary, Europe around 1915 - 20

Many people around the world also seemed to be naked or half naked around the year 1900. It looked like something was seriously wrong. Almost as if a previous global civilisation or global order had collapsed and the world had to start everything again. Researchers call this previous civilisation Tartaria

Many researchers pointed out that the new history children were told in schools was not the history of the people in the villages. Because, - it is the history that they were told or were given in the schools in the city

areas. Therefore it is not the history of the “people” of Europe and America. It clearly was not their history and did not represent them.

The children were told in school that their parents were superstitious. The children were taught the new languages, which were also created in the city area. The children were taught that the history that their parents told them were myths, and legends, and very old.

Many village people came to the cities looking for jobs or were forced to go there or separated from their families.

Researchers investigated some of the myths and legends that the children preserved. In England and America for example there is a very important character named King Arthur

Many people kept this story alive, but children and grandchildren were told in school that it was a myth and that it was not true. The children were told that the stories of King Arthur were imaginary tales that their parents and grandparents had told them

The story of King Arthur was so big throughout Europe and America, but historians rejected the story of King Arthur.

The Holy Grail is very important in the story of King Arthur.

The Holy Grail is very important in the story of the Knights Templar

Historians rejected the story of the Holy Grail and say that it is a myth. Children in school were told that the stories of the Holy Grail were imaginary tales that their parents and grandparents had told them

The Knights of the Round Table are very important in the story of King Arthur.

In Central Europe there is the character of King Attila the Hun. To many people he is known as Khan Attila. He is normally depicted with 2 horns on his helmet like the Vikings. He allegedly ruled a huge empire from east to west.

An important story regarding King Attila is that he had a big feast. An important feature of this event was that King Attila had a modest wooden cup on the table but all his guests had cups of gold and silver. This cup seemed to be very important in the story. Historians portray King Attila as a barbarian.

The Vikings are normally depicted with 2 horns on their helmets. They are said to have travelled from east to

west as far as America. Historians portray the Vikings as barbarians.

The Vikings allegedly believed in a god called Odin. Dead Viking warriors are said to go Valhalla. This place is the hall of Odin, where they all eat together.

Historians state that the story of Odin and Valhalla is a myth. Children in school were told that the stories of Odin and Valhalla were imaginary tales that their parents and grandparents had told them

Thor is one of the most important characters in Viking history. Thor is also very important for many Germanic peoples around the world. Historians state that the story of Thor is a myth. Children in school were told that the stories of Thor were imaginary tales that their parents and grandparents had told them

Many people pronounced the name King Arthur name in different ways in in other parts of the world. The world is full of many people who have different accents and pronounce things in different ways.

The Chinese pronounce words differently from the Indians. The Americans pronounce things differently from the British. The German accent is much different from the French.

Researchers noted that the names King Arthur and King Attila sounded very similar. They also noted that the names Arthur and Thor were very similar. In Tatar language the word King is pronounced Khan or Karn. Arthur is pronounced Athul by many people in their dialects. Athul is the same word as Attila, but pronounced differently. King Attila is called Attila Khan by many people around the world. In some Muslim countries the name Attila is known as Adil. Many people pronounce the word Adil as: - Adul or Dhul Karn.

Historians state that almost all these stories are myths and fantasies. Children in school were told that these stories were imaginary tales that their parents and grandparents had told them. Because the children were separated from their families, they lost the original history that their parents and grandparents had taught them

Historians modified and totally changed some of these stories and wrote negative things wherever they can. Attila the Hun and the Vikings were shown in history as people who went round the world murdering and pillaging, - and rape and theft.

Researchers concluded that all these stories probably had had one origin. It was clear that Dhul or Attila or Arthur or Thor, - was probably the same person. But children forgot the original history and the new languages made the names sound like different people.

To make matters worse, historians did their best to modify this history. They claimed that it was mythology. Historians placed 12 knights at the table of King Arthur to match the constellations. They did the same thing with the history of Jesus Christ. They modified it and mixed it with astrology.

What researchers discovered was that the history of the world according to the Arabic Koran was different to what historians say. The Holy Grail and many other stories are found in the Arabic Koran. Researchers discovered that King Arthur or Thor or King Attila was similar to a character in the Arabic Koran known as - Dhul Karnain - Dhul Qarnayn

Researchers noticed that Odin sounded like Eden: - or - The Garden of Eden. Valhalla sounded like the Hall of Allah. There are many interpretations regarding the word Odin, and researchers accepted that this word may have had several meanings.

The Arabic Koran states that Dhul Karn went from east to west and had great adventures and was a sincere man of God. The Arabic Koran mentions how great and powerful this man was, and that he came across the Gog and the Magog

The Holy Grail story came from the story of Jesus Christ. Researchers investigated this matter further.

There is a very famous story known as the Last Supper of Christ. This is where Jesus Christ has a meal with his followers.

Many researchers have always questioned why the famous painting of the last supper of Christ by Da Vinci, showed the 12 constellations.

Historians gave no realistic answer regarding this question

The Last Supper of Christ was so important in history that there were many stories about the Holy Grail. The Holy Grail is the Cup of Christ. It is the cup that Christ drank from in the Last Supper.

Researchers investigated why this story was so important in the past. Was it just a myth as historians say, or was there something more important?

Jesus Christ drank from many cups during his lifetime. Why was the cup from the Last Supper so important? If

Jesus Christ drank from many cups and had many meals, why was the Last Supper important and why did this cup become the Holy Grail?

Historians claim that it was a myth and fairy tale. Historians state that the followers of Jesus Christ were superstitious in the past. No real explanation is given by historians why there was great importance regarding the Last Supper of Christ and the Holy Grail (Cup of Christ).

There were many stories that the children preserved. It was said that if you drink from the Holy Grail or the Cup of Christ, you can be healed from any disease. Researchers noted that the word Holy was very similar to the word Allah, but that was another long story.

Researchers then decided to look for the answers regarding the Last Supper of Christ and the Holy Grail (Cup of Christ). They decided to look, - where no one will look: - in the Arabic Koran

The Arabic Koran mentions that Jesus Christ requested from God to send down a table with food from heaven.

Because the table came down from the sky or the heavens, this is probably the reason why the constellations were added to the story by the historians and artists in the city areas

The Holy Grail or Cup of Christ became important because it came to earth from the heavens. It was not superstition, but based on a story mentioned in the Arabic Koran.

Historians also say a similar story regarding the history of the Christmas Tree

The four Gospels in the Bible do not suggest any link between Jesus Christ's birth and any tree so why do Christians have a Christmas tree?

Maybe the answer is here - according to Arabic Koran, Jesus was born beside a tree.

The tradition of the Christmas tree is such a big tradition and according to modern historians, they tell you it is probably a pagan tradition from many centuries ago and say many different things which greatly confuse you, none of which make sense. Some researchers say that such things were designed on purpose to hide the truth - and to create such confusion and difficulty for researchers to eventually give up - or to finally think that there is no truth out there.

What researchers found very strange is that the Arabic Koran mentions the story of the birth of Jesus Christ and the birth story is different up to a certain extent from the Gospels in the Bible. The Arabic Koran says that Jesus was speaking after he was born for example, and also says that Jesus was born beside a tree. The story below, where it says - she - it is referring to the Virgin Mary and tells the story of the birth beside a tree. The tree has - dates. Dates are a type of sweet - fruits that grow on date palms.

m/historical-jesus/the-christmas-tree-in-the-quran/

But in the Qur'an's account of the birth of Jesus a tree features prominently. I have commented elsewhere on the story of *Jesus' birth in the Qur'an*, so I will only quote the relevant Qur'anic verses here:

“She conceived him, and she withdrew with him to a far place. (19.22) And the pangs of childbirth drove her to the trunk of a palm tree. She said: “I wish I had died before this and had become something totally forgotten!” (19.23) Then he called her from beneath her: “Do not grieve! Your Lord has placed a rivulet beneath you, (19.24) and shake the trunk of the palm tree toward you, and it will let fall fresh dates upon you. (19.25) So eat, drink, and be consoled. If you meet any human being, say: ‘I have vowed a fast to God, so I will not speak today to any human being.’” (19.26)

The birth took place under a palm tree which also provided Mary with food she desperately needed. This account also has noticeable similarity with the tradition of placing presents under the Christmas tree. The latter may be seen as celebrating the sending of Jesus as

Researchers found that the history of the Christmas tree is only a few centuries old and not 2000 years old and this made them question - when did Jesus Christ actually live? Also Christmas trees were originally decorated with sweet fruits such as apples and berries or similar fruits that people found in their local market.

This evidence made researchers question - what were these so-called Christians doing in Europe? Why were they decorating a tree in such ways? Were they all actually Christians? Or has the history of Europe been deliberately changed? After all - the Arabic Koran was the enemy and the opposing force at the time. Did historians hide the true history of Europe or change it deliberately to remove any traces of the Arabic Koran and its followers?

According to historians, the people of Europe and America were following stupid unknown pagan traditions. Researchers believe that the evidence from the Arabic Koran shows that the Christmas Tree tradition was not pagan.

The original story was lost because children were separated from their parents and the historians told them that it was pagan.

The Christmas Tree tradition is so big in Europe and America. It is not a small matter. This made researchers conclude that the Arabic Koran probably had the true history of Jesus Christ.

Many children preserved the history of Atlantis. AT -
LAND - ISLAND or the island of AT

Historians and scientists in the city areas told them that it was a myth and was not true history

Historians in the city areas said the story came from a man named Plato and historians say that it is a myth

Researchers such as Anatoly Fomenko have shown that the history of Plato is a forgery and was created recently. Many researchers believe that historians have tried their best to change the history of the AT land to make it hard for people to find the truth

Many people around the world stated that the people of AT land (Atlantis) were tall and constructed great buildings

Historians told children in school, all over the world that Atlantis and other advanced civilisation from the past did not exist and that they were myths that their parents had told them

As time went by, the next few generations were told theories which stated that their ancestors were not advanced and they were animals. Theories were taught in schools that their ancestors were monkeys and that

there were no advanced civilisations in the past. In simple terms, they were told that the civilisation of AT (AT-land-island), - never existed in the past.

The theory of evolution was a polite way to say that your ancestors were dumb and stupid. They were monkeys. They were animals. What your ancestors told you are myths and fairy tales

Researchers decided to see if they could find the story of AT land in the Arabic Koran and it was there. According to the history mentioned in the Arabic Koran, the great civilisation of AT land existed. Modern historians have tried to claim that this is a local myth in Arabia. But the Arabic Koran does not say AT land was in Arabia

The Arabic Koran says that the people of AT land, were a people of great stature and height and that these people were constructing amazing buildings

Researchers found it very strange, that these children who were taken away from their families, mysteriously preserved stories and traditions that are mentioned in the Arabic Koran.

The children were taken away from their parents by force or were kidnapped. Such things happened for many years and many decades.

The children must have suffered very badly

Around 90% of the people in Europe and America lived in villages in 1850. Today almost 90% of the people live in cities. This difference is so big. The majority of these people did not speak these modern languages. The history they were told was not their history.

Researchers showed much evidence that the history they were told were lies.

Could it be possible that these people were followers of the Arabic Koran? There was much evidence to show that they probably were followers of the Arabic Koran

Almost everything the children preserved was called a myth or fairy tale by historians in the cities. But the Arabic Koran says that these stories are not tales, but they are true history. No wonder the Arabic Koran is seen as a threat by the historians and the world order.

Researchers concluded that there was much evidence to show that the Bible was not the book of these children. The modern languages that they speak today, was not their original language. These languages were created recently.

Researchers found much evidence to show that the Arabic Koran was probably their book and was their

history. There is a lot more evidence regarding this matter, but it is too long to mention here

It seemed clear that after the power of Tartaria collapsed, the people in the villages of Europe became a target by the bankers and industrialists.

Without the protection of Tartaria - no one was there to help them, and their children were taken away. Their languages were destroyed and their history was destroyed. Their beautiful traditions were lost. Anything that survived, such as the Holy Grail or the Christmas Tree, were labelled as pagan or as myths.

The parents of these children must have been so heartbroken and devastated. Researchers concluded that historians, who work for the world order, did their best to hide this history. Of course historians got paid a lot of money for writing their lies

Researchers examined: - the Lord's Prayer in Christianity

Our Father who art in heaven
Hallowed be thy name
Thy kingdom come
Thy will be done
On earth as it is in heaven.
Give us this day our daily bread
And forgive us our trespasses
As we forgive those who trespass against us
And lead us not into temptation
But deliver us from evil
For thine is the kingdom
The power and the glory
For ever and ever
Amen

the Lord's Prayer

Historians state that the Lord's Prayer came from the story of Jesus Christ and can be found in the Bible

Researchers found that the Bible had many contradictions and many problems. There are too many to show here

Researchers noticed that the Lord's Prayer in Christianity was similar to the prayer in the Arabic Koran. The prayer is found in the first chapter of the Arabic Koran. Below is the prayer from the Arabic Koran

***In the name of God, the Gracious, the Merciful
Praise be to God, Lord of the Worlds
The Most Gracious, the Most Merciful
Master of the Day of Judgment
Thee alone do we worship
Thy aid alone do we seek
Guide us to the straight path
The path of those who are blessed
Not of those who earn Thy anger,
Nor of those who are misguided
Amen***

In the Arabic Koran, the prayer says - In the name of God.

The Christian prayer says - Our Father - who art in heaven

In the Bible, in the Book of Kings it says that the heavens cannot contain God. This means that the first sentence of the Lord's Prayer does not make sense and must have been fakely added to match with the Trinity.

The Trinity - Father, Son and Holy Spirit

God does not live in heaven. God created heaven but does not live there.

In that case the sentence - Our Father who art in heaven is a lie.

Because God does not live in heaven

Matthew 6:9-13 (NRSV)	Luke 11:2-4 (NRSV)
Our Father in heaven,	Father, [Other ancient authorities read <i>Our father in heaven</i>]
hallowed be your name.	hallowed be your name.
Your kingdom come.	Your kingdom come.
	[A few ancient authorities read <i>Your Holy Spirit come upon us and cleanse us.</i>]
Your will be done, on earth as it is in heaven.	[Other ancient authorities add <i>Your will be done, on earth as in heaven</i>]
Give us this day our daily bread. [Or <i>our bread for tomorrow</i>]	Give us each day our daily bread. [Or <i>our bread for tomorrow</i>]
And forgive us our debts, as we also have forgiven our debtors.	and forgive us our sins, for we ourselves forgive everyone indebted to us.
And do not bring us to the time of trial, [Or <i>us into temptation</i>] but rescue us from the evil one. [Or <i>from evil</i>]	And do not bring us to the time of trial. [Or <i>us into temptation</i> . Other ancient authorities add <i>but rescue us from the evil one (or from evil)</i>]
[Other ancient authorities add, in some form, <i>For the kingdom and the power and the glory are yours forever. Amen.</i>]	

The end of the Lord's Prayer says - For thine is the kingdom, The power, and the glory, For ever and ever. Amen. These words are not found in the Bible versions of the Lord's Prayer so they must have been falsely added on to the prayer.

Researchers noted that the Lord's Prayer in the Bible had different versions and that they did not match each other

After the children were taken from villages and taken to city areas, researchers concluded that the children were taught this so called Lord's Prayer. Many researchers concluded that the original Lord's Prayer was probably

very similar to the prayer found in the Arabic Koran. It was very clear that the prayer was modified in order to match the Trinity

According to historians, the great Tartarian buildings were built using horses and donkeys. The construction evidence shows that historians are telling lies about this subject. Many researchers concluded that the Arabic Koran had the true history of the story construction

Researchers noticed that whatever the Arabic Koran generally said, historians seemed to say the opposite. The Arabic Koran was said to be a book for conspiracy theorists because it did not agree with what historians said.

For example, the Arabic Koran says that God helped the Romans and the people who believed in God celebrated the victory of the Romans

The photo above shows an example of what historians say. These were the so called Gods of the Romans

According to historians the Romans had many different gods and were idol worshippers but the Arabic Koran does not say that the Romans were idol worshippers.

Many modern Muslims now state that the Romans were idol worshippers. They say this, because many modern Muslims have now started to accept the false history that is presented by historians. Many modern Muslims have not even read the Arabic Koran and do not even know what the Arabic Koran says

Researchers such as Anatoly Fomenko and others have shown that many of the new books in modern Islam accept the same falsified history as the rest of the world

Researchers pointed out that the Modern Islam of today is divided into groups or sects with various beliefs - and some sects have a clergy system like the Catholic Church - and other sects follow books which oppose and contradict each other.

Many of the books that modern Muslims follow were written by the European and American organisations, but that is another long story.

The symbol in the photo above is a very famous Roman symbol found in many places and on many historical relics. It is known as Pax Romana (the Roman Peace). It looks like a P and X. There are 2 other characters in the photo, known as the Alpha and the Omega.

The Romans were famous for using the symbols that are today known as the Alpha and the Omega.

Historians claim that they are Greek letters and claim that they are allegedly Christian symbols

What researchers found very strange was that the Alpha and the Omega in the Pax Romana look exactly like the symbol for Allah (God in Arabic). Alpha is known as Aleph in Arabic

Researchers concluded that the Pax Romana - was the Peace of Allah of the Peace of God

Pax means peace. Islam - or - Salam means peace.

Rahmana means merciful God in Arabic

Photo below - shows the letters for the Alpha and the Omega from Pax Romana, - and - it also shows the

letters for the symbols used to write the word Allah in
the Arabic language

Omega

Alpha

Researchers found that there was much evidence to
show that the Old Arabic language was part of Europe
and Asia and America 200 years ago until the languages
were changed

For example - obey Allah - became - obey the law.

Fake royal families were placed all over the world. Instead of the law of the Koran, it became the law of the Crown. The crown was a symbol of authority and was worn by the fake Kings and Queens. Many researchers believed that the original symbol of authority was probably the Arabic Koran, but that is another long story too long to mention here

Hallelujah is a famous word throughout Europe and America and the world. No proper meaning has been given for this word, but people in Europe and America have been saying it for centuries. Different places pronounced it differently. It was probably among the top 10 most common words in Europe and America. A close examination of the words reveals its meaning

al - le - lu - ah

il - al - la - ah

allelujah

ilallaha

In Arabic it simply means - there is Allah - or - God exists. This is part of the declaration of faith for Muslims all over the world. It is strange that so called Christians in Europe and America were singing the declaration of the Muslim faith for centuries

Considering the fact that children were removed from their families between 1860 and 1945 and taught new languages and new history and new religions, it is amazing that the word Hallelujah survived.

Many Germanic and European languages were changed and replaced within the last 200 years. The story of the language changes is too long to mention here.

The screenshot shows a web browser window with the address bar displaying <https://www.languagecoach.co.uk/german-words-of-arabic-origin/>. The website header includes the 'GLC German LANGUAGE COACH' logo, a clock icon indicating '08:00 - 20:00' hours, and a phone icon with the number '020 7148 7846'. A navigation menu contains links for 'About', 'Testimonials', 'Private Lessons', 'Intensive Courses', 'In-Company Training', 'Online lessons', and 'Changes'. The main heading is 'German Words of Arabic Origin', posted on 05/09/2014 by Stefan Oloffs. An image of white sugar cubes with a small sign that says 'OK' is shown. The text explains that German has evolved to include words from other languages, many of which are derived from Arabic. It specifically mentions 'Kaffee' (coffee) deriving from the Arabic 'qahwa', which originated in 15th century Yemen and was introduced to most Western languages around 200 years later. It also notes that 'Aprikose' (apricot) derives from the Arabic 'al-barqūq'.

German Words of Arabic Origin

Posted on 05/09/2014 by Stefan Oloffs

Like many languages, German has evolved to include words, which originated from other languages; many of these are surprisingly derived from Arabic. Arabic words feature commonly in many Western languages and were most often introduced centuries ago.

However you drink it, 'Kaffee' derives from the Arabic 'qahwa'. Coffee drinking originated in 15th century Yemen and the word was introduced to most Western languages around 200 years later.

Developed through a few languages, 'Aprikose' (apricot) derives from the Arabic 'al-barqūq'.

Before the changes happened, many researchers discovered that Old Arabic played an important role in European and Germanic languages.

Languages such as Old High German and Old Slavic had much in common to Old Arabic. Many researchers noted that a person who could speak Old High German would possibly be able to understand Old Arabic, almost as if it was another dialect. Because history has been falsified, the history of languages has also been falsified

Even as far as South Africa, the Old Afrikaans language had many similarities in sounds and words to Old Arabic.

Below are some examples showing this

Arabic - Old High German - German - English

NAHWA - NAH - NACH - TO

***MACHA - MARKON - MARSCHIEREN - WALK
(French - marcher)***

SALIH - SALIG - SELIG - BLESSED

TURBA - TURBA - TORF - PEAT

ARDH - ERDHA - ERDE - EARTH

SILAHA - SHLAHA - ERSCHLAGEN - SLAY

HEWA - HEBANI - HEBEN - TO LIFT

SETA - SEHS - SECHS - SIX

SEBA - SEBAN - SIEBEN - SEVEN

BURJ - BURGH - BURG - FORTRESS

DANA - DEWANI - DER WAHN - VANITY

ANBAR - EMBER - BERNSTEIN - AMBER

KAFILA - FILA - FADEN - THREAD

KIRAH - KIRAHA - RACHE - REVENGE

FURAHA - FROIDA - FREUDE - JOY

ASKARI - DE ASKARI - DIE SCHAR - SCHAR/FOCUS

FITINA - FAHIDA - FEHDE - FEUD

HASIRA - HAZIRA - HASS - HATE

HALLA - DE HALLA - HALLE - HALL

IBLIS - IBIL/UBIL - UBEL - EVIL

MA LUMU - RUMU - BERUHMT - FAMOUS

MAHAL - MAHAL - MAL - MALL

MIZAN - MEZAN - MESSEN - MEASURE

RAHA - RUWA - RUHE - CALM

SAFAR - ASAFARI - AUSFAHRT - DRIVE/EXIT

TAKALUF - TAKALEBEN - TAGESLEBEN - DAILY LIFE

SAHIH - SAKHUR - SICKER - SURE

ADIL - ADAL - ADLIG - NOBLE

TUFFAH - TUFAL - TEUFEL - DEVIL

KHARN - HARN - HORN - HORN

INJEEL - ANGIL - ENGEL - ANGEL

SHAYTAN - SHKEIDEN - SCHEIDEN - SATAN

ALLAHU - ALAHO - ALLMACHTIG - ALMIGHTY

These are just a few examples to show the close similarity between Old Arabic and the Old Germanic languages. After the languages of the world were replaced in the last 200 years, many languages lost their connection with the Old Arabic language.

Many researchers now believe that the people in the villages probably spoke languages that had greater connection to the Old Arabic language. When people were forced to live in the city areas and their children were taken away, they were forced to learn new languages.

Many villages that did survive, eventually they lost their original languages and they became mixed with the new languages. This happened because schools were opened in every village that taught the new languages. These mixtures became known as dialects. The dialects changed every 10 years as the new languages slowly took over. It did not happen in 1 day. This process took over 150 years.

For example the word cigarette comes from the word: -cigar. Many historians claim that maybe this word came from France or from Spain or from the Mayan language.

Historians know that the Arabic Koran has been demonised so no one will really check the Old Arabic language. The word cigar also comes from Old Arabic.

The word “Saqar” means to burn in Old Arabic. The modern English word “scar” also came from this word

Most of the original languages in the world were replaced in the last 200 years. For example, - the modern English language was created in the last 200 years and was given to the people by the ruling powers.

Many people in England still remember that their grandparents told them: - that their great grandparents spoke other languages.

The Arabic Koran and its followers were hated in the past and the same thing can be said today. Historians in

the past mentioned that the Prophet Mohamed had so called Holy Wars.

These Holy Wars has been mentioned many times in history and even today.

What historians and the media fail to mention, is what these Holy Wars were really about. The word Holy is similar to the word Allah, the Arabic word for God. In the English language, “holy” means: -

God is Holy - or God is Allah

Holy War basically means - War Holy - or - the War of Allah

Picture above - Arabic Koran, Chapter 2, verse 279

For example the Arabic Koran has a notice and declaration of war against a group of bankers and their corporations who deal in interest, - in business and finance. Researchers found this strange.

Holy War? Against the bankers?

Many researchers have pointed out that a similar war is taking place today between the global bankers and many people of the world.

It was clear why the global world order has demonised the Arabic Koran and its followers and has made sure that the people of the world do not understand the message of the Arabic Koran.

The declaration and notice of such a Holy War in the Arabic Koran is a threat and danger to the global bankers and their global economic system.

Protests come and go and they die out. The anti-Vietnam war protests have gone. The 911 truth protests - September 11 truth movement protests have gone. The anti-abortion protests come and go. Human rights protestors come and go.

But the Arabic Koran and its message did not go for a long time, so this is why it is a threat to the bankers and their world order

There are historical traditions which mention that Jesus Christ also had a similar Holy War. Evidence has shown that the original Book of Christ has been modified but that is another story too long to mention here

The Bible does mention a serious incident that Jesus Christ had with bankers.

The story says that Jesus Christ had a battle with the bankers and overthrew their tables

Researchers tried to imagine if someone overthrew banking tables today.

What Jesus Christ did, was not a small thing. As a matter of fact, Jesus Christ called these people thieves. Because the original Book of Christ is not available, we no longer know the full truth behind this incident, but we can see it was against the bankers

The people who control the world media and the world order want to the give the people of the world a false impression of the Holy Wars mentioned in the Arabic Koran.

For example, a fake group was created to fight a so called holy war. This group was called ISIS - the Islamic State

Muslims are labelled as paranoid. When Muslims show evidence that ISIS - the Islamic State - and the many attacks in Europe and America are organised by western powers, it is called a conspiracy theory.

In the photo above, Muslim researchers pointed out that Senator McCain from the United States of America met the leader of ISIS - the Islamic State - known as Baghdadi

It was a secret meeting

Researchers soon realised that the leader of ISIS - the Islamic State - had nothing to do with Muslims. His real name was not even Baghdadi. He was playing an act and dressed up as a so called Muslim leader

Researchers soon realised that this was nothing new. Actors were used in the past and actors are still being used today.

In fact the full history of the world showed that actors were used in many events in the last 200 years.

Researchers found that many characters were falsely invented throughout history.

://twitter.com/Observer1117/status/1102365898801930240/photo/1

- 1. Abu Mosa - ISIS Press Officer**
- 2. Abu Bakr al-Baghdadi - Head of ISIS**
- 3. Senator John McCain (R-AZ)**
- 4. Muahmmad Noor - Syrian Terrorist**
- 5. Mouaz Moustafa - *SETF
(*Syrian Emergency Task Force)**

Researchers soon identified all the men that Senator McCain met in his secret meeting in Syria. He met the leader of ISIS - the Islamic State - and other terrorists who have been involved in murder and kidnappings.

John McCain met the so called ISIS - the Islamic State - Press Officer - Abu Mosa. Researchers concluded that he was nothing but an actor playing his role.

Their job was to make a mess and to make sure that they gave Islam a bad name

Everything seems to have gone according to plan

The evidence showed that ISIS - the Islamic State - was nothing but actors.

They were paid actors, just doing their job.

McCain said that it was a coincidence, and that these people wanted photos with him as he was walking past.

But the evidence in another photo shows that McCain sat down and had secret meetings with them.

It was a secret meeting. Here we can see a very important US Government official in a war zone. And he is stating that terrorists were taking souvenir photos with him.

And these people just happened to be ISIS - the Islamic State - and their leader and Al Qaeda terrorists. What an amazing coincidence.

It was not easy to get inside Iraq or Syria at that time, so how did he get inside Syria secretly and mysteriously meet these people? It was clearly all planned and organised

This is the crisis within much of Islam. They don't believe anything that the media says or what western politicians say. They investigate and believe what the evidence shows.

Researchers noticed that in most videos and photos that showed ISIS - the Islamic State, their equipment and uniforms and flags were almost always very clean as if they were brand new. It was like everything was a big act.

Researchers noticed that everything seemed to be going according to plan. Islam was demonised. The media successfully showed that these so called paid actors and mercenaries were Muslims. These same mercenaries, were teaching own version of Islam. They

gave out many books that were teaching violence and hatred. These books were written and printed by their masters in Europe and America.

Countries like Syria and Iraq became a mess. While ISIS - the Islamic State occupied Iraq and Syria, they spread their false teachings to millions of people. It was part of their job.

Researchers asked: - why would anyone want to spread fake Islam? What was the purpose and what was the reason? Why would someone want to make sure that Islam had a bad name? Was there something that they feared within the message that was written within the Arabic Koran?

Researchers found the answer to this question. The answer was - yes. The Arabic Koran mentions a different world history and the Arabic Koran mentions a Holy War against the bankers.

Researchers noticed that many people now believed that the bankers have taken control of large parts of the world and are trying to form a world order, in order to rule the world.

Many people believed that the bankers are using actors and are trying to control both sides. History has shown that protests and organizations come and go, which is

why bankers know that they can control or influence protests and eventually destroy them

Many researchers actually state that many politicians and movie stars around the world are fictional characters. Some of them are full time actors and other wear masks. Different actors are used on different occasions whenever necessary. Some actors wear masks to fill in the jobs of other actors when they are not available.

Researchers believe that these actors are working for a secret group of bankers behind the world stage. Below is President Biden of the United States of America in October 2020. He was being interviewed by the American media.

Many people noticed that the man in the interview was wearing a mask

Researchers realised that this man was an actor.

The actor forgot to wear the neck mask or the body mask.

With the help of Artificial Intelligence (A I = 19), it would be very easy to copy the voice of President Biden, whoever Biden really was.

Researchers looked at many politicians and movie stars and singers from the last 200 years and concluded that most of them were actors. Researchers concluded that many of them wore disguises or masks.

Researchers stated that they did this in order to create a false history for the world. And, also to hide who the real bankers really are, because they are trying to rule the world.

Millions of people around the world have done a lot of research regarding the actors being used in politics and the media and the music industry and on television.

Both of these people looked very similar

Photo above - Sandra Bullock.

Millions of people noted that she had an apple on her neck

Millions of people all around the world have noticed that many female politicians and musicians and actors had an apple on their neck. Many of them seemed to have male features.

Millions of people around the world concluded that many of these people are actually men. The evidence showed that they were not reptilians or fallen angels or Annunaki or aliens from outer space.

They were men who were using Artificial Intelligence (AI = 19) to improve their capabilities, and also using make up and masks and other equipment for their advantage. Many researchers estimate that there are thousands of these people worldwide, - in every city.

These people were wearing disguises in many cases. Sometimes they wore face and body masks. They used

facial make up to change their appearance or face masks.

Many of them looked similar because the person under the mask was probably the same actor. Different actors can be used to wear different masks, in order to have these people in same room. It was not cloning. It was just masks and make up.

Many people from the past looked similar to people today, which was very easy to explain. All you had to do was use the same masks again 50 years later.

It was easy to create wedding photos. It was very easy to create a fake history for anyone. Just create the masks and find the actors. Then you can create videos and photos, - and this can create the past. With the help of Artificial Intelligence (A I = 19), it will be very easy to make the photos look old.

Also some people noticed that Michelle Obama looked different in some photos. That is understandable because a different actor could have been used to play her character when necessary. This would explain why many of these people contradict themselves on many occasions

Many people noticed that many of the females looked like men and had apples on their neck. This evidence showed that they were men under their masks and under their disguises.

Many of these people may have been born as men, and may have changed their gender

Looking at the historical evidence around the world and the history of technology mentioned in the Arabic Koran, researchers concluded that a group of people

had hidden the technology of the world after the fall of Tartaria.

This group of people had used the technology to create false history. This group of people had used the technology to slowly take control over the world. Technology according to the history of the Arabic Koran was not new. Researchers concluded that technology was hidden away in the last 2 centuries

This also explained why thousands of historical documents had to be modified in order to hide the true history of technology

Researchers found many mathematical patterns in events around the world as if they were planned by a group of people who had access to digital technology and Artificial Intelligence (A I = 19).

Researchers concluded that global politicians were actors. Many were wearing masks and disguises and some could even be full time actors.

Considering the fact that the history of technology is clearly mentioned in the Arabic Koran, it was clear how fake history was constructed mathematically and how modern events were planned mathematically. All they had to do was use Artificial Intelligence (A I = 19).

**there is exactly 1 year 1 month 1 day
BETWEEN 9/11/01 september 11 twin towers
AND 10/12/02 BALI ATTACK**

=====

**There are exactly 911 days between the New
York attacks on September 11,
2001 and the Madrid bombings on March 11,
2004,**

=====

**there is 999 DAYS BEWTEEN BALI ATTACK
AND LONDON 7/7 2005 ATTACK**

**It also explained why the Arabic Koran was seen as the
enemy because they failed to modify it, - and also
because the Arabic Koran had preserved what is
probably the true history of the world**

**Millions of people around the world now believe that
politicians and actors and singers, are working for a
group of bankers who are trying to rule the world.**

Millions of people around the world believe that these bankers, and the actors who are working together with them, - actually worship Satan.

These people, the bankers and the politicians and the actors, they created the false history and the false Bible. This is the reason why they do not follow the false Bible themselves. Because they know that it is a lie.

They are clearly fighting against the Arabic Koran and they reject the history of the Arabic Koran.

A serious question is: - what religion do these people follow?

They obviously do not follow the Bible and they hate the Arabic Koran. So what religion do they follow?

People have noticed that many politicians and actors and singers around the world, show the Sign of Horns very often. Some people see this sign as a symbol for Satan (the Devil).

Crooked Hillary - Hillary Clinton

President Barack Obama

The Pope

President Macron of France

Madonna the singer

President George W. Bush

This symbol was very common among these people.

Photo above - funeral of the wife of President Lyndon B. Johnson in 2007

During the funeral of the wife of President Lyndon B. Johnson in 2007, - most people who attended that day, made the Sign of Horns symbol.

The funeral was attended by important people such as President Bill Clinton

What researchers noticed, was that the people who were making this symbol, were actually making a salute. This was supposed to be a funeral. But, the people who attended were making the Sign of Horns at the funeral

Many of the people there that day, made the symbol with great happiness and joy

**Many people thought of Nazi Germany, when they saw
the salute at the funeral**

Even the so called Christian priests were making the symbol at the funeral. It was clear that this was not a Christian practice.

Researchers found much evidence that Christianity was not a real religion, but was a group of organisations that told lies and was there to deceive people and control them. But that is another story too long to mention here

Who were these people greeting and praising?

Who is their lord and master?

Many people concluded that these people were greeting their lord and their master. This was supposed to be a funeral, and they were making this symbol with great happiness and joy.

Millions of people around the world believe that the lord and master of these people is Satan, the Devil himself.

Many people around the world have noticed that there is an agenda to change or modify humans. The transgender and transhuman agenda is widely spoken of. Genetic modification is now a very serious subject. Many people believe the actors and singers are being used to promote these things

Researchers were very shocked to find that the Arabic Koran mentioned this story. The Arabic Koran says that Satan himself will command bad people in the world to change what God has created.

The Arabic Koran warned the people of the world a long time ago regarding the plans that Satan and his followers had against humanity. It was clear to researchers why the Arabic Koran was demonised. The Arabic Koran exposed such plans a long time ago

The Arabic Koran shows that Satan and his followers were at war with humanity and tells the people of the world to fight against Satan and his followers. The Arabic Koran mentions that Satan and his followers have plans to dominate mankind

Researchers such as Anatoly Fomenko and others have shown that the history of the world has been totally falsified.

Many researchers have clearly pointed out that mathematical patterns can be clearly seen in the fake history of the world and in modern world languages and in many other things

The graphs below are an example by Fomenko which shows - the similarity in the number of years ruled by the Kings of England and the third Roman Empire - primarily in the east - and we can see clearly that they are practically the same.

The lines show how many years a king ruled, it is longer if he ruled longer. You will notice that the timelines of the kings of the 2 different nations - are similar - that they are practically the same kings - except that their names were changed to create fake histories for different countries.

Fomenko shows the number of years these people supposedly ruled in both nations (the number of years are in brackets) and then shows this on a graph - opposite each other - showing the similarity in the number of years the kings ruled their nations.

Researchers point out that it can be clearly seen that one nation copied another. Who copied who and why? And which was the original? And was the original one true - or was that falsely created also?

Fomenko demonstrates that not just the timelines have been copied but events have been copied and duplicated - mostly the places and names have been changed to match their local histories to give them a new history. Most events were copied and some events were even made up to make the local histories unique for political and nationalistic purposes for each nation.

Researchers point out that to make the fake history seem true - monuments and fake historical manuscripts and books and artefacts were created

Researchers say that we have a serious problem here - if they copied each other - where did they find the original? Also it means that all the history and the evidence in museums - and documents for all these kings - are totally fake - and that these kings did not exist. For example there is King William I of England - known as the conqueror - who was in the Battle of Hastings in 1066 - if he did not exist - it means this battle never happened. We also have King Richard the Lionheart - if he did not exist - then the Crusades against Original Islam also never happened the way we are told. If history is a lie and has been made up - then there is the new serious question - what is true history?

Below is a graph showing the similarity between the Holy Roman Empire between the 10 and 13 centuries

and the Kingdom of Judah and the number of years they supposedly ruled.

Once again researchers point out that - we can clearly see that one nation copied another or that maybe they copied from another original source. Who copied who and why and of course - when did they do this and what was their reason to do this?

The lines show how many years a king ruled (the number of years are in brackets) - the lines are longer if the king ruled longer. You will notice that the timelines of the kings of the 2 different nations - are similar - that they are practically the same kings - except that their names were changed to create fake histories for different countries.

Researchers point out that here again - it can be clearly seen that one nation copied another. Who copied who and why? And which was the original? And was the original one true - or was that falsely created also?

Below is a graph showing the similarity between the Kings of Russia and the Habsburg Kings of Germany and the number of years they supposedly ruled.

The lines show how many years a king ruled (the number of years are in brackets) - the lines are longer if the king ruled longer. You will notice that the timelines of the kings of the 2 different nations - are similar - that they are practically the same kings - except that their names were changed to create fake histories for different countries.

Researchers point out that once again - it can be clearly seen that one nation copied another. Who copied who and why? And which was the original? And was the original one true - or was that falsely created also?

Below is a graph showing the similarity between - the Kings of Navarre in Spain and the Kings of Sweden - and the number of years they supposedly ruled. Notice the distance between many of these nations and the locations are far from each other.

The lines show how many years a king ruled (the number of years are in brackets) - the lines are longer if the king ruled longer.

Once again you will notice that the timelines of the kings of the 2 different nations - are similar - that they are practically the same kings - except that their names were changed to create fake histories for different countries.

Researchers point out that AGAIN - it can be clearly seen that one nation copied another. Who copied who and why? And which was the original? And was the original one true - or was that falsely created also?

The graph below shows the similarity in the number of years ruled by the French kings at Charlemagne's time and the third Roman Empire - primarily in the east - and we can see clearly that they are practically the same.

Researchers point out that AGAIN and AGAIN - it can be clearly seen that one nation copied another. Who copied who and why? And which was the original? And was the original one true - or was that falsely created also?

Because there was so much copying - it meant that these kings were obviously made up and created falsely - and researchers began to worry - it was almost like there was no true history at all - it meant that all the stories and documents and literature of the past were also falsely created to match the fake histories.

The graph below shows the similarity in the number of years ruled by the Popes - who are the worldwide leaders of the Catholic Church of Christianity. The left side of the graph shows the Popes from the years 140 AD to 314 AD - and the right side of the graph shows the Popes from the years 314 AD to 532 AD.

The lines show how many years a pope was in office (the number of years are in brackets) - the lines are longer if the pope stayed in office longer.

First Period of the Roman Episcopate in 141-314 A.D.

Second Period of the Roman Episcopate in 314-532 A.D.

These Popes were in office in different centuries - not even in the same century - but researchers point out that you will notice that the timelines of the popes in the different centuries - are similar - that they are practically the same - except that their names were changed to create fake histories for different centuries.

Researchers came to the conclusion from the evidence that the so-called history of Rome and the Byzantines and Holy Roman Empire and Roman Episcopate and the European kingdoms - was falsified and was a lie.

Anatoly Fomenko and other researchers have provided much evidence to show that Jesus Christ and many other characters from Original Islam and Original Christianity, - may have actually lived in Europe and Asia and in the Americas, - and not in the Middle East. Many researchers believe that the history of these people has been falsified.

There are many stories that demonise the Prophet Mohamed. They were created on purpose to make sure that people do not read the Arabic Koran.

There are many false stories regarding who he married and what age the girl was. Many researchers have shown that these stories were totally false and created to demonise the Prophet Mohamed and to destroy the message in the Arabic Koran. These stories are not in the Arabic Koran

Researchers such as Anatoly Fomenko have clearly shown that western historians have created a false history for the Prophet Mohamed. That is another long story too long to mention here. Many modern Muslims, who have not even read the Arabic Koran, now accept some of this false history that has been created for the Prophet Mohamed.

It was clear that after the fall of Tartaria, history was falsified. The children were taught many new things. AT

land - Atlantis, it is a myth. King Arthur or Thor, it is a myth. The Holy Grail, it is a myth. Advanced civilisations are a myth. Ancestors were stupid monkeys? Yes. Everything that was mentioned in the Arabic Koran was a myth

Children were told crazy things in school. For example they were told that God is a Ghost. The Holy Ghost or Holy Spirit. Sounds like a big joke. Their parents were not there to stop this from taking place. No wonder true history was lost. There are many more examples of how history was changed or destroyed, but too long to mention here

Researchers concluded that after the fall of Tartaria, the current world order created the false history. They took the children away from their families in the villages. They then gave the children new languages and new

religions and new history. They built fake monuments and fake historical relics to match the false history.

Artificial Intelligence (A I = 19) was used to help create history and organise events. Artificial Intelligence (A I = 19) was also used to help organise politics and the media and the music and fashion industry.

Many researchers found many mathematical codes and symbols in the music and the media which showed that these things were organised on purpose to deceive people, but that is another long story to mention here.

Artificial Intelligence (A I = 19) was also used to create the new languages and also create the Bible. This is why amazing codes and much astrology can be seen within the Bible and in other books. This showed that the original books of Christ were lost and why people found many contradictions and other problems in the Bible

Researchers found much evidence which shows that the Arabic Koran was probably the book of the common people of Europe and America. But much of this history has been destroyed on purpose and only a little remains today

All these subjects regarding world history has now become known to researchers as the subject of

Tartaria. Researchers have concluded that history is a lie and are now trying to understand true history.

**Good luck if you wish to know more about Tartaria.
Below are books about these topics**

Tartaria - Mud Flood

Tartaria - History is a Lie

Tartaria - Fake Monuments

Tartaria - Coronavirus

Tartaria - Hitler

© David Ewing Jr 2018
